

British Columbia Tripartite Education Agreement (BCTEA) Annual Virtual Meeting on Transportation to Public Schools (AMT) Save the Date and Registration Open – April 18

You are invited to the fourth Annual Meeting on Transportation, hosted by the Ministry of Education and Child Care, Indigenous Services Canada (ISC), and the First Nations Education Steering Committee (FNESC). We strongly encourage all school districts and First Nations with students living on reserve and attending B.C. public schools to participate in this event. This is an important step toward building a strong, effective, and inclusive education system that supports the success of First Nation Students in B.C. public schools.

Topics of discussion:

- Policy changes for 2024/2025
- Funding available for transportation-related costs
- 2023/2024 reporting
- 2024/2025 Joint First Nation Student Transportation Plan submissions
- First Nations' School(s) of Choice Legislative Amendments
- First Nation Student Transportation Research Summary.

Background

The *BC Tripartite Education Agreement: Supporting First Nation Student Success* ("BCTEA") between the Province of British Columbia (B.C.), FNESC, and ISC (collectively the "Parties") sets the foundation for further growth and changes to support the enhancement of the B.C. public education system. As a component of BCTEA, the Parties agreed to develop and implement effective measures to address existing and future issues arising from the transportation of First Nation Students to B.C. Public Schools.

Since 2018/2019, provincial Boards of Education and First Nations have been asked to work together to determine First Nation Student transportation needs and to co-develop Joint First Nations Student Transportation Plans ("Joint Plans"), informed by guiding principles and criteria established by the BCTEA Parties.

As we enter the sixth year of implementation of this strategy, the central purpose of this gathering is to discuss current and updated policies related to First Nations Students' transportation needs and answer questions for the 2024/2025 school year. Effective working relationships and collaboration between First Nations and local school districts is crucial to finding safe and reliable solutions to the transportation needs of First Nations Students in B.C.'s public school system.
